

4C offers child care referrals, helps parents find child care options and provides information on how to choose quality care.

Parents know their children's needs better than anyone else. Because of this, child care decisions are best made by parents. Remember to look, listen and ask! Be sure to visit and interview several child care providers before making a selection. Ask questions and check references before leaving a child in care.

Parents are fully responsible for making the right choice in child care. 4C cannot guarantee any child care provider or child care setting. For questions or concerns, please contact us at the 4C office nearest you.
