Ice Cube Bags**

What you will need: Ice cube tray  
Water  
Red, yellow, and blue food coloring  
3 reclose able plastic bags

Mix water and food coloring together and pour into the ice cube tray. Make enough for two ice cubes of each color.

When frozen, place one red and one yellow ice cube into a plastic bag.

Then place a red and a blue ice cube into the second plastic bag. Then place a yellow and a blue ice cube into a third plastic bag.

Let your child move the cubes around in the bags. They will be amazed by what happens when two colors melt together!
